

C program to count sum of numbers in a string

### Algorithm

1. Start
2. Enter string, i, sum=0
3. for (i=0; strlen!=\0; i++)
  - { if ((strlen[i] >= '0') && (strlen[i] <= '9'))
  - { if ((strlen[i] >= '0') && (strlen[i] <= '9'))
  - {
  - Sum += (strlen[i] - '0');
  - }
  - }
4. output sum of all digits
5. stop

### Flowchart
