

Display length of string using pointers

### Algorithm

int main()

1. Start

2. Initialize str[20], length;

3. gets [str]

4. length = string length [str]

5. print str, length

6. Stop

int string length (char \*p)

1. Start

2. Initialize count = 0

3. while (\*p != '\0')

    count++

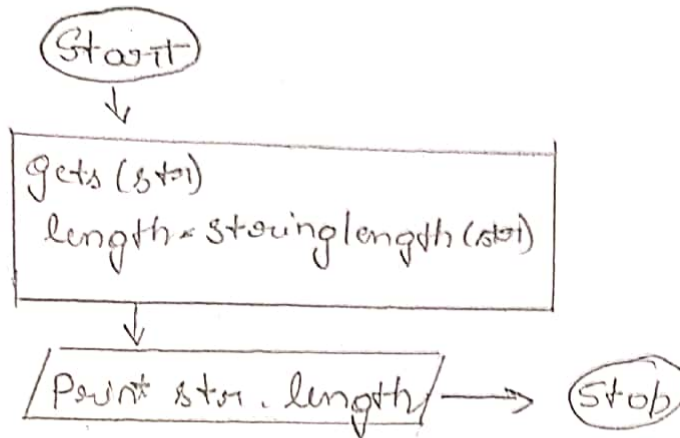

    p++

4. return count

5. Stop

# Flowchart

int main()

int stringlength(char \*p)
